6th World Nuclear Industry Congress 2019 aims to bring together companies involved in all areas of the nuclear power plant life cycle to proficiently discuss cutting-edge issues and emerging trends which affect and even lead the nuclear industry. Governments, regulators, utilities/operators, reactor vendors, decommissioning contractors, waste management agencies, technology & service providers and other organizations will share valuable insights into the most important aspects of new build, life extension & decommissioning projects as well as radioactive waste handling. This conference is a "must-attend" for anyone who wants to stay current and on top of industry trends and developments. Meanwhile, for those who are keen to find new investment opportunities or strengthen their presence in this market, our two-day event will also provide a cozy platform to meet your future partners..
